

WE TRAIN HEROES

LEVEL UP
ADVENTURES

WE TRAIN HEROES

At some point, we all want a little adventure.

Whether you're stuck in a cubicle or comfortable in a corner office, there's been a time that you've watched a movie, read a book or played a videogame and thought "I wish I could do that."

At Level Up Adventures, you get to.

Sometimes, you just want to be awesome.

WE TRAIN HEROES

We believe that everyone has the right to some adventure in his or her life, so we have dedicated ourselves to giving people that opportunity. We create classes, events, and adventures aimed at letting you be the star of your own movie, your own videogame, your own adventure.

Have you ever had to decide whether to avoid roaming sentries or disable them silently? Pick a locked door or climb to safety? Have you ever tracked a kidnapper to his lair to rescue a hostage?

You can.

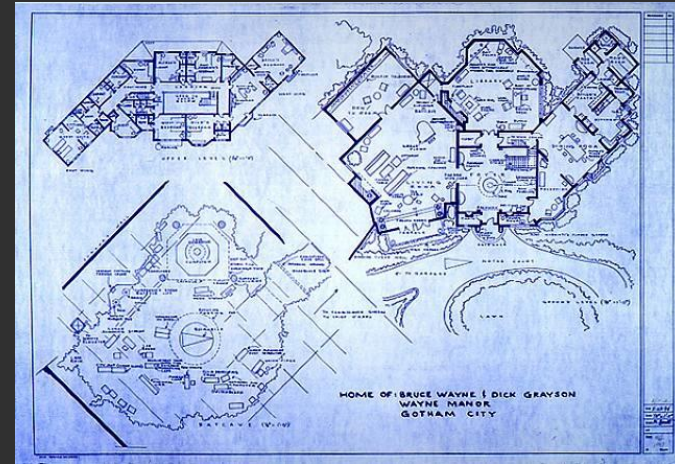

Sometimes, you just want to be awesome.

WE TRAIN HEROES

Our new HQ is meant to be the first academy dedicated to the teaching and training of heroics in the modern world.

Students will learn self defense, parkour, problem solving, and teamwork, all within a heroic framework, leading to classes that include rescue adventures, crime scene investigation, obstacle runs, and defense scenarios.

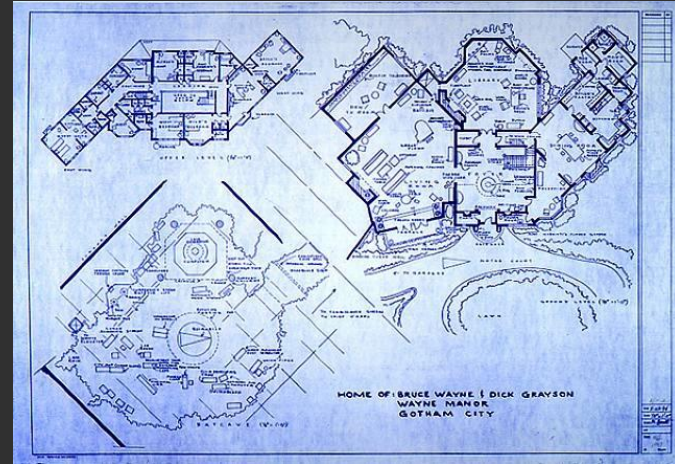

Sometimes, you just want to be awesome.

WE TRAIN HEROES

In order to accomplish this, our goal is to create a fully modular facility capable of becoming a wholly immersive training environment.

Unlike gyms and dojos that rely on rows of equipment and empty practice mats, mindless repetition and impractical motion, we base all of our training in real world scenarios and, as such, our facility needs to reflect that. City street replicas replace standard mats; walls, windows, and scaffolding take the place of pull up bars and dumbbells.

Sometimes, you just want to be awesome.

**WE
TRAIN
HEROES**

The Sidekicks program is aimed at heroes aged 8 to 16. and focuses on functional movement, the importance of exploration, and responsible action.

Students should leave every class better than when they came in, and should graduate the program as confident, competent heroes, ready to tackle the complexities of life's adventures.

**SIDE
KICKS**

Sometimes, you just want to be awesome.

WE
TRAIN
HEROES

HEROES

Hero training takes the Sidekicks program and turns it up to 11.

Students begin with a base of force on force combat scenarios, dedicated parkour training, and advanced problem solving with a focus on questions of moral and ethical gray areas.

Heroes now begin to be eligible for Level Adventures, day (or sometimes night) long adventures built to test everything a student has learned. Boss battles. Success in these adventures means more class options become available. Escapology, acrobatics, tracking, surveillance, and more all become options, creating skill trees that allow students to choose their heroic focus based on their own strengths and desires.

Sometimes, you just
want to be awesome.

SO WHAT DO WE NEED?

We have raised almost half of the money we'd like to build the academy, so we're beginning to put together a crowdfunding campaign to help raise the rest. Along with memberships, private training, and custom adventures, we're looking to collect some really unique, fun rewards for our donors.

That's where you come in...

Sometimes, you just want to be awesome.

HEROES

SO WHAT DO WE NEED?

If your work, your play, your life, has been bettered by heroes or heroic stories, please consider donating some of your time and resources to creating a funding reward we can offer online. Not only will you secure your place at the academy, but you can also help share the heroic tradition with so many more people.

Contact us and simply say you're interested; we'll work out the most awesome, easiest way for you to help out.

Sometimes, you just want to be awesome.

ABOUT US

Level Up Adventures was founded with the simple goal of helping people make not only the most of their lives, but the best.

By teaching people the skills commonly associated with those we find truly heroic and putting them in practical real world social and philosophical context, we have developed a system that offers participants the chance to push their physical and mental boundaries in a safe and fun environment, while offering a glimpse into the world of the adventurer, the hero.

As our system trains the body to move through the world in heroic fashion, so too is the mind conditioned to look at the world from another perspective: one of freedom and courage. Our program was created to give you the freedom to move through life in your best way possible in the hopes of fostering the greatness in each of us, allowing ourselves the joy of not only having great heroes, but of becoming heroes ourselves.

Sometimes, you just
want to be awesome.
